

Pray with us

Be joyful in hope, patient in affliction, faithful in prayer.

Romans 12:12

PNKS, Cambodia

Almighty God, we give thanks for the Community Initiative Development Groups established by PNKS in rural northern Cambodia. Through these groups, people are recognising the skills they have to create positive change in their communities. Lord, we ask that you be in these groups, helping people work together to address shared challenges.

We ask for your support for the PNKS team as they assist communities in adapting to the changing climate. Guide them as they train and support individuals whose crops are affected by irregular weather patterns. May their livelihoods be secured and their crops thrive.

We give thanks for the work being done by group members to build sanitation in people's homes and educate their communities on hygiene to stop the spread of disease. We pray that communities will continue to see the eradication of preventable diseases.

Thank you for the PNKS staff. We pray you will guide and provide for them as they work diligently to serve their communities.

Spafford Children's Center, East Jerusalem

Wonderful counsellor, we give thanks for the team at Spafford Children's Center. Thank you for the work they are doing to enhance the development and well-being of children who are dealing with communication and emotional challenges.

We pray for all children who live in East Jerusalem who are affected by trauma, especially due to severe political tensions. Protect them from the surrounding chaos. We pray that the work of Spafford would not be hindered by political instability. Lord, please help fight the stigma that exists for parents around getting support. May all children receive the help they need to work through the trauma they have experienced.
